GRIEVANCE DESCRIPTION			
<p>I would appreciate if you can help me on this. While filing up the income tax return, I can see an entry for TAX deducted by TAN MUMS89586A and the name of the deductor shows up as State Bank of India with a total tax deducted of an amount equal to RS 9384. It is not clear as to why this tax would be deducted when I do not have any account with SBI and did not do any transaction with SBI. I called SBI customer care and they suggested to check with the income tax department for more details. Attaching form 26AS for your ready reference. Pls reach out to me @8800497517 or veena50@gmail.com</p>
